Kerry's Crazy Telly Interview

KERRY Katona made a shocking appearance on ITV1's This Morning today when she seemed to be under the influence of alcohol or drugs – and got angry with the show's presenters when they asked her about her drinking habits.

The I'm A Celebrity star, 28, repeatedly slurred her words during her interview on the show – and looked put out when questioned by Fern Britton and Philip Schofield.

Her publicist Max Clifford has since expressed concern about Kerry's health and happiness.

But husband Mark Croft insisted the only drinks she'd consumed before the programme were "cups of tea".

Speaking after her appearance on the show, Mark told MTV News that Kerry had taken her medication for bipolar disorder four hours late last night due to TV commitments. He explained: "One of the side effects of her drugs is slurred speech and as Kerry took the drugs late and was up early it was particularly bad today.

"Having answered the questions to the best of her ability, Kerry was upset at the insinuation that she was on anything other than the prescription drugs which she has always been honest about taking."
